

**Reference: Article 22.00,
Sec. 22.02 Comstock
Township Zoning Ordinance**

Applicant: _____

Submitted by (if other than Applicant): _____

ATTACHED IS A PERMIT INFORMATION CHECKLIST. The Township has provided you with this list for your information and use. **If applicable**, complete this checklist and submit it along with your Site Plan Application for Planning Commission review. Attach any additional information or permits you feel may be pertinent to your application process.

The Department of Natural Resources and Department of Environmental Quality (MDEQ) have been combined into what is now the Department of Natural Resources and Environment (DNRE). The attached list, prepared by the DEQ, contains key questions to help you identify what departmental permits, licenses, or approvals of a permit-like nature might be needed for a project.

By contacting the appropriate offices, you will help reduce the possibility that your project or activity will be delayed due to the untimely discovery of additional permitting requirements later in the process.

While their list covers the existence of permits and approvals required from the DNRE, it is not a comprehensive list of all legal responsibilities (i.e. planning requirements and chemical storage regulations may apply). A useful way to learn whether any other requirements will apply we suggest referring to the Self Environmental Assessment in the Michigan Manufacturers Guide, online at: <https://www.michigan.gov/deq/0,4561,7-135-3308-15820--,00.html>

For your information and assistance we have attached a contact list of various state and local divisions as well as a Guide to DNRE Divisions & Offices.

=====

PLEASE ALSO COMPLETE THE FOLLOWING:

Please list hazardous substances expected to be used, stored or generated on-site.

- a. Quantities should reflect maximum volumes on-site at any one time.
- b. Attach additional pages, if necessary to LIST ALL hazardous substances.

Common or Trade Name	Chemical Components	Form	Maximum Quantity	Storage
1.				
2.				
3.				
4.				
5.				

Key:

<u>Form</u>	<u>Storage</u>
L = Liquid, S = Solid, G = Gas	AST = Aboveground Storage Tank
PL = Pressurized Liquid	D = Drum CY = Cylinder
PG = Pressurized Gas	WC = Wooden Container
	UST = Underground Storage Tank
	MC = Metal Container
	PT = Portable Tank

Does your project involve connection to a sanitary sewer that involves any hazardous and/or industrial chemicals, or wastewater or waste in any quantity to be discharged to the Kalamazoo Wastewater Treatment Plant?

YES NO Pretreatment may be required therefore you need to contact the City of Kalamazoo.
